

Lawyers & Judges Defense Group

We were the first California firm to focus on defending lawyers, judges and neutrals. We have represented judges, law firms and individual lawyers in literally thousands of cases. We have tried more than sixty legal malpractice cases to jury verdict. Our appellate advocacy on behalf of lawyers has yielded more than thirty published opinions. We bring to each new case a strategic perspective based on unparalleled experience.

Lawyers

We have more experience defending lawyers at trial than any other California firm. Our clients range from the largest firms in the world to solo practitioners. We have experience defending California lawyers in virtually every substantive practice area.

Judges

Long & Levit has represented trial and appellate court judges throughout the state in hundreds of matters before the Commission on Judicial Performance. We are knowledgeable about the Commission's procedures and policies and understand its focus and objectives. We also understand the importance of discretion and diplomacy in handling these sensitive matters.
